

Individual Instructor Report Spring 2023 Version A for STA 301 - INTRODUCTION TO DATA SCIENCE (05285) (Henrique Bolfarine)

Project Title: **Instructor Course Evaluations Spring 2023**

Courses Audience: **58**

Responses Received: **14**

Response Ratio: **24.1%**

Report Comments

Results were collected during the implementation of a new course evaluation system.

Guide to the Interpretation of Course Evaluations at UT Austin

The goal of course evaluation process at UT Austin is to drive teaching excellence and to support continuous improvement in teaching and learning experiences. The two sets of scales used for core evaluation questions and the associated weights are:

Strongly Agree (5)
Agree (4)
Neutral (3)
Disagree (2)
Strongly Disagree (1)

Excellent (5)
Very Good (4)
Satisfactory (3)
Unsatisfactory (2)
Very Unsatisfactory (1)

The Mean is calculated by adding all of the weights for a single question and dividing by the number of respondents. The course workload question is not averaged.

The number of students (e.g. Respondents) marking each option is reported for each of the items. These frequency distributions provide information about the level of student ratings and the spread and shape of the class distribution of responses. The distributions thus provide a picture of student perception of a course.

Course evaluations provide snapshots of student perspectives on their course-level learning experiences. Most experts on teaching evaluation advise that no one method gives the complete picture of an instructor's teaching effectiveness; multiple and diverse measures, on multiple occasions, are advised to give a full picture of the teaching effectiveness of a particular instructor. Moreover, other factors, such as size of class, level of the class, and content of the course, can cause small variations in the ratings. Therefore, student perspectives for a particular instructor or course should be interpreted as a snapshot, and not as providing complete information on the teaching effectiveness of that instructor.

Creation Date: **Friday, June 16, 2023**

Course Questions

Why did you take this course?

During this course, I gained a deeper understanding of the subject matter.

Statistics	Value
Mean	3.86

The course was well organized.

Statistics	Value
Mean	3.93

Overall, approximately what percentage of the course meetings did you attend or complete (online, in person, or asynchronously)?

Statistics	Value
Mean	86.64

The course assignments improved my ability to apply quantitative skills to real-world problems. (Flag Question)

Instructor Questions

	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree	Responded	Mean
The instructor clearly explained the course objectives and expectations.	35.7%	35.7%	7.1%	14.3%	7.1%	14	3.79
The instructor fostered an inclusive learning environment.	50.0%	35.7%	7.1%	0.0%	7.1%	14	4.21
The instructor effectively explained the concepts and subject matter in this course.	35.7%	28.6%	14.3%	14.3%	7.1%	14	3.71
The instructional techniques kept me engaged in learning.	35.7%	21.4%	14.3%	14.3%	14.3%	14	3.50
The instructor checked for student understanding of the concepts presented in the course.	42.9%	21.4%	28.6%	0.0%	7.1%	14	3.93

Overall Questions

College, School, or Unit Questions

Comment Questions

Identify aspects of the course that were the most effective in helping your learning.

Comments
Nothing was effective.
working together
Bolfarine would create jokes and would make the class more engaging.
The instructors was thorough in his lectures
The R sessions really helped me understand the course more effectively.
The learning checks
The homeworks and knowledge checks were the most effective in helping my learning

Identify the aspect of the course that you found most challenging, why you found it was challenging, and suggest one thing that could be done to help future students meet that challenge more effectively.

Comments
Everything. The teachings were confusing. I suggest either getting a different teacher or do something different about the lectures. they are boring and very easy to not pay attention to.
Trying to understand the lesson. Asking him to break it down and slow down.
The homework's were pretty challenging because of extensiveness in content
The most challenging parts were definitely the exams, but one thing that could be done to help future students are going to office hours, r sessions, and making sure to be reading the book.
I hated that we never got a lot of practice during class only reading slides
I found the code most challenging because I had never done it before, one thing that could be done to help future students would be to prepare the students earlier with coding in R
